EVIM Belgrade Meet-Up - 2017

April 27, 2017 Belgrade, Serbia
April 27, 2017 Beograd, Srbija

The motto of the EVIM in 2017: «Shaping the mobility»

Keynote speeches and the panel session will relate to the topics Global Agenda (see below)

Date: 27.04.2017, Thursday

Venue: RENEXPO Water and Energy Western Balkans, Belexpocentar, Španskih boraca 74, Belgrade

9.30-10.20 Registration. Acquaintance of participants. Networking time.

10.20-10.30 Opening the Meet-up. Welcoming words from and thanks from the organizers.

- Introduction of Ante Milos, the Moderator of EVIM Belgrade Meet-Up.
- Welcoming words of Denis Radiuk, founder of EVIM International Summit, CEO GreenClinic LifeScience Global OÜ (Estonia).

10.30 – 13.00 Plenary session:

- 10.30-10.50 **Ante Milos,**
LEDON Tehnologija
"International best practice"
- 10.50-11.10 **Slobodan Misanovic,**
Enterprise for Public Transportation in the City of Belgrade
"Experiences of usage E-busses in the City of Belgrade"
- 11.10-11.30 **Djordje Radojic,**
AQOS, automotive design and manufacturing company
- 11.50-12.10 **Dragan Škrnjić,**
Organizer of Tesla Rally
"Status, market, gaps and next steps"

11.30-11.50 Short break

- 12.10-12.30 **Zoran Nikolic,**

Institute of the Technical Sciences of the SASA
“History of EV in Serbia”

- 12.30-12.50 **Olivera Djordjevic**,
AMSS - Automobile and Motorcycle Association of Serbia
“Conversion of conventional vehicle to pure electric”
- 12.50-13.00 **Biljana Djordan**,
City of Pancevo
- *Reserved*

13.00-13.20 Break for networking and review of the exhibition

13.30-15.30 Expert panel session:

Part I:

Transport. New vision of mobility

Structure, market strategy and policy of development for sustainable transport. Infrastructure development. Market of vehicles. Transport services. Achievements and experience in Serbia, other countries of Central and Eastern Europe: how to keep and increase the pace of growth?

Part II:

Implementation of EV technologies, solutions and business models into investment projects. Financing. New industry, new workplaces, new culture – opportunities and challenges. e-Mobility and renewable energy sources: energy supply, grid interaction and charging. Smart Grid and intellectual solutions. Cost of energy and connection. Development of national infrastructures. International and cross-border projects.

Moderator: Ante Milos, LED Tehnologija

- **Slobodan Misanovic**, Enterprise for Public Transportation in the City of Belgrade
- **Olivera Djordjevic**, AMSS - Automotive association of Serbia
- **Djordje Radojic**, AQOS Technologies
- **Zoran Nikolic**, Institute of the technical Sciences of the Serbian Academy of Science and Arts
- **Dragan Škrnjić**, organizer of Tesla Rally
- **Biljana Djordan**, City of Pancevo

15.30-16.00 Meet-up Summary.

GLOBAL AGENDA 2017

The Global Agenda, the basis of all the EVIM events in 2017, approved with the advisory board, includes:

The EVIM provides the international summit platform for cross-disciplinary collaboration of the **three interconnected fundamental sectors** of sustainable development:

- **Electric Mobility**
- **Renewable Energy, Energy Supply and Energy Storage**
- **Sustainable Infrastructure and Smart Architecture of Human Environment**

The key topics:

- **The Strategy:** EV market, development, investments and business models, new workplaces.
- **The Business environment and Legal framework:** legislation and incentives
- **The Infrastructure:** architecture and urban planning, roads and charging network expansion, integration of electric transport into the infrastructure projects and city development
- **The Energy:** energy supply, grid connection and interactions, smart grid and powering of electric vehicles, energy storage, integration of renewable energy sources into the architectural environment
- **The Technology and products:** electric cars and LEVs, charging stations, software, grid and power supply management solutions, new product startups, batteries, vehicles conversion, OEM and parts
- **The Best practices:** achievements and examples of success
- **The Climate change and Sustainability:** vision, development and practice of implementation of zero emission / low emission economy and culture approaches

The businesses and stakeholders of the three industries are connected by the Global Agenda of the EVIM with the aim of acceleration of common development and growth
